

## COP21: Results and Implications for Pathways and Policies for Low Emissions European Societies (COP21 RIPPLES)

### *Kick-off Meeting*

January 23-24, 2017

Holiday Inn, Paris Gare de Lyon Bastille

### FINAL AGENDA

**Mission statement:** there is a lot of assessment on INDCs, transition pathways, global governance of climate change. It's a crowded landscape. The scientific context and policy context are also moving fast after Paris. We therefore need to be creative and innovative. Everyone is invited to ask themselves, e.g. in preparing a presentation: what exists? What's important? What do we want to do that's new and innovative?

#### MONDAY, 23 JANUARY

**9:30-10:00**      **Registration and coffee**

**10:00-10:15**      **Welcome and Opening remarks**  
Overview of the COP21 RIPPLES project and key objectives of project and meeting (IDDRRI)

**10:15-10:30**      **The funder's perspective: EU policy processes in research & innovation**  
(Peter Horvath, European Commission, DG Research and Innovation)

**10:30-12:00**      **Panel discussion: Key issues and challenges to be addressed in the project (motto: be creative, be provocative!)**

Chair: (IDDRRI)

Panelists: Thomas Spencer, Michael Grubb, Sebastian Oberthuer

- The objective of this session is, before getting into the detail of the project, to step back and consider the scientific and policy context.
- This is also the moment to consider whether changes in the context since the development of the project proposal could justify some reorientation of any tasks.
- Each speaker should speak for 10 minutes max on key challenges to be addressed in the project

- 
- Each speaker should offer reflections on the ways in which the project contents could be tailored to address these challenges.
  - The presentations will be followed by an hour of open discussion.
